

## **AESC Continue Global Partnership with Invenias**

**1st December 2016, London**

The Association of Executive Search and Leadership Consultants is delighted to announce its renewed partnership with Invenias, a global leader in cloud-based executive search solutions.

This is the third year that AESC and Invenias will work together, having strengthened their relationship with the integration of AESC's BlueSteps database and the Invenias platform last year. The integration facilitates a seamless transfer of confidential candidate information from BlueSteps, exclusively available to AESC members as a benefit of membership, to Invenias' platform, which is used by many AESC member firms to manage their assignments.

Glenda K. Brown, Managing Director, at AESC, says: "AESC members adhere to the highest standards of professional practice and we expect the same commitment to excellence from our partner program. Many of our members trust Invenias as their chosen software provider and we are therefore excited to extend our relationship."

David Grundy, Chief Executive Officer at Invenias, says: "Having attended a variety of AESC events around the world over the last two years and had the opportunity to meet with many members, we are pleased to renew this mutually beneficial relationship. We are delighted that increasing numbers of AESC member firms are choosing Invenias to provide them with solutions for their search operations."
